**Letter of recommendation**

It's my pleasure to issue this letter of reference on **Solus Software & Systems.**

I recommend Solus as an excellent source for integrated facility management systems. Their Solutions & equipments are IP-ready, work reliably and are easy to use.

Solus Access Control System is deployed at our multiple facilities at Bangalore, Hyderabad and Chennai Operations.

The System is managing about 50 Doors & Access Points i.e. turnstile etc and managing about 3000 employee at various locations.

The customized reason code feature (Card +PIN) of the System is worth mentioning.

System is working Non stop 24 hours, for about three years.

The Systems are running to our full satisfaction. With this very positive experience we plan to adopt Solus for all our future installations.

Solus has shown an extraordinary ability to identify our needs and provide us good working practical solutions.

**Yours truly,**

**Kiran Rao**
